Subject: CCWG-AP Question for ICANN Board Input

Dear Becky and Maarten,

As you know from the last CCWG Auction Proceeds call, the CCWG has drafted a set of questions for additional input to assist the group with refining responses to charter questions and evaluating possible mechanisms. The CCWG is hoping that the Board can provide input on one question in particular:

“What is the Board’s perspective on whether ICANN, the organization or a constituent part thereof, such an SO or AC, can be an applicant under any circumstances?”

Can you kindly assist with obtaining feedback from the Board on this issue?

Kind regards,
Emily
